

WHAT WE OFFER

Vocational Rehabilitation is the progressive process of empowering adults with disabilities to plan, prepare for, attain and maintain gainful employment. VR Counsellors assist participants in exploring goals based on their interests, abilities and skills.

THE PROGRAM

The VR Program is available to Manitoba residents 16+ years of age who have a physical, neurological and/or hearing disability. An assessment by a Vocational Counsellor will determine whether the VR program is a good fit for the individual.

The goal of the Vocational Rehabilitation program is to empower adults with disabilities to find, obtain and maintain employment, with no fee for service.

SERVICES OFFERED

Eligible participants will go through the following process:

- Assessment (Review skills, abilities, interests, background)
- Develop an individualized plan (select appropriate goals and identify next steps)
- Counselling (receive one-on-one support, encouragement and problem-solving)
- Implementation (job seeking, interviewing, onboarding)
- Follow-up (Counsellors provide support during transition phases to a new job)
